EVENT

FORMAT: Over 50 drivers were invited to take part in the \$100,000-to-win World Series of Pro Mod invitational. Only 32 drivers will qualify after four qualifying sessions. Qualified drivers will draw chips to determine pairings for the first round of eliminations and all following rounds. The quicker driver will get lane choice. A Chicago-style second-chance race will take the 16 quickest non-qualifiers; drivers

will be randomly paired, with the quickest two winners coming back for a final round after the WSOPM semifinals. Pro Mod teams will use the eighth-mile format with “outlaw” rules. MMPS, Top Dragster, and Super Pro will also run eighth mile. Factory Stock and XFWD will compete over the quarter mile. All heads-up classes will determine eliminations pairings using a random chip draw.
